

DATE: 16/Sep/2026

DAY: Wednesday

SQE : LAB 2

Name : Saad Bin Zahid
Reg. No. : Sp24-BSE-153
Class : BSE-BA
Date : 16-Sep-2026

Q# 5 Test Cases Of CUI

Test Case 1 : Student Profile Information Verification

- Test Case ID : TC-DASH-001
- Requirement / story Ref. : REQ-SIS-DASH-1.1 / US-001
- Module / Feature : Student Dashboard / Profile Overview
- Test Type : Valid ECP
- Pre-Conditions : Student account exists and is active; user is logged in with valid credentials.
- Test Steps & Input Data :
 1. Navigate to

[https://sis.cuiatcl.edu.pk/#Dashboard.aspx]

2. Observe the top profile summary card.

Input Data: Active Session for Reg. No:

FA21-BCS-045

- Expected Result : Profile section displays correct registration number, Student Name, Degree Program, Current Semester and CGPA matching database records.
- Actual Result : (To be filled during execution phase)
- Status : (To be filled during execution phase)
- Severity (if Failed) : 2 - Major

Test Case 2 : Attendance Threshold Boundary Check

- Test Case ID : TC-ATT-002
- Requirement / Story Ref : REQ-SIS-ATT-2.3 / US-012
- Module / Feature : Attendance Management Summary
- Test Type : BVA (Boundary Value Analysis)

- Pre-Conditions : Student is enrolled in course CSC321 - Software Quality Engineering : total classes conducted = 30.

- Test Steps & Input Data :

1. Navigate to

[<https://sis.cwiatd.edu.pk/Dashboard.aspx>]

2. Click on Attendance Summary tab.

3. Verify status badge when total attendance classes = 23 (76.6%) vs 24 (80%).

Input Data : Course : CSC321, Attended : 23 vs 24

- Expected Result : System flags 76.6% with a red warning badge (Short Attendance Alert), while 80% displays a green status badge (Eligible for Exam).

- Actual Result : (To be filled during execution phase)

- Status : (To be filled during execution phase)

- Severity (if failed) : 2 - Major

Test Case 3: Semester Fee Challan Generation

- Test Case ID : TC_FIN-003
- Requirement / Story Ref : REQ-SIS-FIN-3.1 / US-025
- Module / Feature : Financial Accounts / Fee Details
- Test Type : Valid ECP
- Pre-Conditions : Student has pending or active semester fee balance registered for the current term
- Test Steps & Input Data :
 1. Navigate to :
[<https://sis.cuitd.edu.pk/Dashboard.aspx>]
 2. Click on Fee status / Printable Challan section.
 3. Click the Download Fee Challan button.
Input Data : Active Semester Fee record.
- Expected Result : System generates a downloadable PDF challan containing correct student credentials, itemized fee breakdown, due date and valid bank details.

- Actual Result : (To be filled during execution phase)
- Status : (To be filled during execution phase)
- Severity (if Failed) : 3 - Moderate

Test Case 4 : Sessional Marks Breakdown Display

- Test Case ID : TC-RES-004
- Requirement / Story Ref : REQ-SIS-RES-4.2 / US-038
- Module / Feature : Academic Result & Session Marks
- Test Type : valid ECP
- Pre-Conditions : Course instructor has uploaded Sessional 1, Quiz and Assignment marks into the system.

- Test Steps & Input Data :
 1. Navigate to
[<https://sis.cwiisd.edu.pk/Dashboard.aspx>]
 2. Navigate to QA / Final Marks.
 3. Expand course Software Quality Engineering.
Input Data: Enrolled subject: CSC321
- Expected Result : System calculates and displays accurate obtained marks, total weightage and class average for Sessional 1, Quizzes and Assignments.
- Actual Result : (To be filled during execution phase)
- Status : (To be filled during execution phase)
- Severity (if Failed) : 2 - Major

Test Case 5 : Direct Access Without Session Authentication

- Test Case ID : TC-AUTH-005
- Requirement / Story Ref : REQ-SIS-SEC-1.4 / US-004

DATE: ___/___/___

DAY: ___/___/___

- Module Feature & Session Management & Access Control
- Test Type & Invalid (Negative) ECP
- Pre-Conditions & Web browser has no active session cookie (user logged out or session expired)
- Test steps & Input Data:
 1. Open a new incognito / private browser window.
 2. Directly paste and enter `[https://sis.wiatch.edu.pk/dashboard.aspx]` in the URL address bar.
- 7/11
Input Data: Direct URL access without auth token.
- Expected Result & Direct access is denied. System automatically redirects to login.aspx with an alert indicating "session expired or Unauthorized Access".
- Actual Result & (To be filled during execution phase)
- Status & (To be filled during execution phase)
